Magnetic protective vice jaws

With our magnetic protective vice jaws you have everything
 "softly" in control at all times!

Description

Elastic protective vice jaws made from polyurethane, brown, 90 +-5 Shore A, with glued in permanent magnets.

- Suitable for all sizes and types of parallel vices for metalworking
- Wide lips enable simple attachment to the vice
- Splinter-proof, non-slip and anti-scratch elastomer coating
- •3 x vertical and 1 x horizontal V-slots for mounting numerous diameters and irregular shapes (only with PRISMA!)

Application

- Ensures a soft, firm grip without the risk of damage
- Clamping of workpieces with delicate, painted, coated or polished surface (e.g. glass...)
